

FRP & Dual Laminate Tank Specialists

Thorpe Plant Services, Inc. provides fiberglass reinforced plastic (FRP) and dual laminate tanks and products. Thorpe custom manufactures FRP/Dual Laminate tanks and products in our manufacturing plants in the US. Thorpe utilizes engineering software, materials, equipment, and design principles alongside industry leading QA/QC procedures. This allows Thorpe to meet growing process and environmental demands from industrial clients for even the most corrosive environments.

Why FRP/Dual Laminate Tanks?

- Economical benefits compared to field install alloy tanks
 - Less labor & freight, smaller crane needs, faster to erect/install
- Safer to assemble than steel tanks – minimal elevated work
- Corrosion resistant throughout the FRP structure
- Exterior paint not required – no “UV” derogation
- Easy to repair if damaged
- Good insulator on temperature and static electricity

Thorpe Service and Product Offerings

- Turnkey FRP & Dual Laminate Specialists
 - Engineering and Design
 - Manufacture
 - Field erect/install
- Custom designs
- Tanks, pressure vessels, scrubbers, piping, ducts and structural components
- Shop and field erected FRP vessels, piping, ducts and equipment
- Full line of U.S. made FRP flanges, fittings & accessories
- Manufactured with premium grade resins: vinyl ester, furan and phenolics
- Thermoplastic and fluoropolymer liners for more severe corrosive environments
